"Chris is cool. He told stories that related."

"The professor was great! Always made things interesting and fun!"

"Instructor gave us everything we needed for homework and tests, and written notes for us to see. Instructor made sure a question was answered and the person understood his answer."

"This was a great course for anyone who wants to start learning about the economics world. It is a good intro class on the topic."

"Chris was very willing to help students out and made time for anyone who required additional help."

"I enjoyed the game unit. thought that was something unique that I have not done before."

"style of class was ideal, involved note taking I would call it"

<i>"I think Chris will be a great teacher as he becomes more experienced, once he noticed people were struggling with his style and speed of teaching he changed and slowed down in order to help students."</i>
<i>"Nope!"</i>
<i>"Professor Zosh was a great teacher, very kind and available to help. I had a hard time with the material, but it was largely not his fault whatsoever."</i>
<i>"n/a"</i>
<i>"professor kept it fun and engaging with various activities"</i>
<i>"None"</i>
<i>"Notes were hard to follow as they were all hand written, a mixture of power point and hand written would help some."</i>
<i>"N/A"</i>
<i>"text the stuff that you present to the class"</i>
<i>"none"</i>
<i>"I think he should keep trying to get more student engagement. It got better as the semester went on but economics can be hard to get student participation. I think he did well trying to facilitate this but got participation from only the same few students who understood the material better than others. There were exceptions to this and he tried to get others to participate. I just think he should keep doing this."</i>
<i>"I liked that the homework was graded for completion rather than correctness. It allowed me to check and review my answers."</i>
<i>"Sometimes the instructor confused me, and made it very difficult for me to understand the topic. I also feel as if the professor was sometimes not as prepared as he should have been because there would be a lot of mistakes in the class notes. He created a positive atmosphere, and was enthusiastic about it, however he failed to get the key concepts across to students."</i>
<i>"no"</i>
Student comments from RateMyProfessor - Unofficial (below):
<i>"I had microeconomics with him and he was great. Made the class very easy to follow and he was very helpful if we had questions. Not too much homework and the tests were very do-able. Plus we had an option final that could replace a bad test grade. Plus he tried to make the class as interesting as possible. All in all he was a great professor!"</i>
<i>"Zoshy was the boy"</i>
<i>"Chris is cool."</i>
